This customer is licensed (non-commercial) with an interlock.

In order to support State and Federal laws/rules, MVD will now refer to an individual's privilege status as 1 of 4 categories:

“Licensed” indicates no active withdrawals and the individual has qualified for this privilege along with the specific credential (Class A/B/C/D/G/M or Non-driving class ID Card).

“Eligible” indicates they do not have a credential, they have not qualified nor have they satisfactorily completed the requirements to be “Licensed”

“Not Eligible” indicates there is a withdrawal preventing them from being Eligible or License.

“RPD” indicates Reported Deceased

Current Credential

Information about the most current credential issued.

Credential Type	Issue Date	Expiration Date	Restrictions	Endorsements	Attributes
Class D Driver License	██████████	██████████			IID Internal ██████████ 2010 - ██████████ 2022

AKA Data

Other names the customer has gone by or other possible names.

Name Type	Name	DOB	DLN
Legal Name	██████████	██████████	██████████
AKA	██████████	██████████	██████████
AKA	██████████	██████████	██████████

Health/vision/medical/age/CDL restrictions will be found here. Ex: corrective lens/non-air brake/hearing aid etc. May also see IID here to comply with AAMVA (see next slide).

This is the end date of the interlock requirement. If applicable, this time will also include IID extensions.

Current Credential

Credential Type	Issue Date	Expiration Date	Restrictions	Endorsements	Attributes
Class D Driver License	████████	████████			IID Internal ██████ 2010 - ██████ 2022

Motorcycle/Hazmat/School Bus etc

Attributes are the "brands" or symbols on the plastic credential such as Travel, Veteran, IID etc.

This is the date the Interlock became a requirement, it is triggered by the dui conviction. It is not the date he began the requirement.

“T - IID external” and “IID internal” is reflected when there is a current Ignition Interlock Device (IID) requirement. The IID dates should always match.

This is used within the State of Arizona.

Current Credential

Credential Type	Issue Date	Expiration Date	Restrictions	Endorsements	Attributes
Class D Driver License	██████/2020	██████/2060	T- IID External ██████/2020 - ██████/2021		IID Internal ██████/2020 - ██████/2021

This is used to meet the **American Association of Motor Vehicle Administrators (AAMVA)** requirements. Just like ACD codes are used to interpret our State’s specific charges to other jurisdictions across the United States. The “T” in AAMVA terms refers to an ignition interlock device requirement.

Address

Type	Street	Ste, Apt, Etc	City	State	Zip Code	Source	Active
Physical	██████████ St		██████████	AZ	██████████	Telephone	Yes

If there was a mailing address it would be reflected below the Physical address and would state "Mailing".

This is the method by which the address was updated.

Will reflect "Yes" or "No".

All prior credentials, including any out of state credentials captured by MVD, are listed here.

Notes:

- The MVR is continuously being updated, please keep in mind the provided information will change. We will update accordingly so that you have the most recent “Guide to understanding the new MVR” available to you.
- Converted records/information (information transferred from the Legacy System to MAX) may display differently on the MVR than the information that is added directly into the new MAX system.
- Interlock information, as of today, is still being addressed and continuously updated.
